Ali Harb

Junior Full-Stack Developer (MERN)

Irbid, Jordan | +962 79 618 7473 | aliharb229@gmail.com | linkedin.com/in/ali-harb-17527a294 | github.com/AliFH23

Summary

Junior full-stack developer specializing in the MERN stack (MongoDB, Express, React, Node.js), with hands-on experience building real websites for SDK Software during a three-month web development traineeship. Builds responsive React interfaces, REST APIs with JWT authentication and role-based access, and MongoDB data models. As a person with a disability, I see it not as a barrier to ambition but as extra drive to create, learn fast and deliver excellent work.

Technical Skills

- **Languages:** JavaScript (ES6+), C++, C#, SQL, HTML5, CSS3
- **Frontend:** React, Vite, Material UI (MUI), Bootstrap, Responsive Design
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication, Role-Based Access Control
- **Databases:** MongoDB, MongoDB Atlas, PostgreSQL, Oracle APEX
- **Tools:** Git, GitHub, VS Code, GitHub Pages, Render, EmailJS

Experience

Web Development Trainee | SDK Software, Irbid, Jordan | Jul 2026 – Sep 2026

- Contributed to the company's web projects, progressing from HTML, CSS and JavaScript to React and the full MERN stack over three months.
- Built responsive frontend features in React and connected them to REST APIs.
- Implemented backend features with Node.js, Express and MongoDB, including JWT-based authentication.
- Delivered client-facing websites for the company: the SDK Software website, the GCE 2026 event site and the graduate yearbook frontend.

Projects

Mawrid – B2B Group-Buying Platform | React, MUI, Node.js, Express, MongoDB, JWT | github.com/AliFH23/mawrid-backend

- Built a platform that pools small-business purchase orders by product, category and region so shops reach suppliers' minimum order quantities and unlock wholesale prices.
- Implemented role-based access for Admin, Supplier and Buyer accounts with JWT authentication.
- Designed the MongoDB data model, including many-to-many shop categories and a 5% commitment fee per participation.

SDK Software Company Website | React, Vite, MUI, EmailJS | alifh23.github.io/Ali-SDK

- Built a bilingual Arabic/English company website with full right-to-left (RTL) layout support.
- Presented the company's services, departments, accreditations and partners, with a contact form that delivers messages to the company inbox via EmailJS.

GCE 2026 Event Website | HTML, CSS, JavaScript | alifh23.github.io/SDK-GCE

- Developed the 2026 edition of SDK Software's annual student exhibition site, presenting 20 student projects grouped by theme.
- Added archive pages for the 2023–2025 editions, a live event countdown and a registration section.

SDK Graduate Yearbook (In Progress) | React, Vite, Node.js, Express, MongoDB Atlas, JWT

- Built the React frontend of a yearbook website for the company's graduates.
- Developing a Node.js/Express API and a protected admin panel so staff can manage graduate profiles without editing code.

Education

B.Sc. in Software Engineering | Jordan University of Science and Technology (JUST), Irbid | 2022 – 2026

- GPA: 3.0 / 4.0

Languages

- **Arabic:** Native
- **English:** Intermediate (currently taking English courses)
